

**HOBART**

LEGACY⁺

Get **more** with the Hobart PLUS System

It's the advantage that gives you **as much as 30% more mixing capacity**. Do **more** in the same-sized bowl. **Get exceptional results.**

The Hobart PLUS System makes Legacy+ mixers the industry's **only Maximum Heavy-Duty mixers**. It's an exclusive combination of technologies that gives you the power to do **more**. The PLUS System includes:

VFDadvantage variable frequency drive

It delivers **more** power and precision motor control. You get the industry's best mixes, doughs and incorporation of ingredients—and **more** of the productivity you need.

The VFDadvantage makes all this possible too:

- **Shift-on-the-Fly™ technology**
Allows speed changes while the motor's running for **more** convenience and efficiency.
- **Soft start**
Gradually increases the amount of electricity delivered to the motor until the selected speed is reached, for **more** mixer longevity and less splash-out.
- **Stir speed**
Ingredients can be incorporated **more** thoroughly with this ultra-low speed setting.
- **FastStop™**
Whether the mixer stops automatically or is turned off, this feature brings HL600, HL662, HL800 and HL1400 mixers to a complete stop in less than three seconds for **more** peace of mind.

The PLUS System gives you:

- As much as **30% more mixing capacity**
- The VFDadvantage variable frequency drive
- Maximum-capacity overheat protection
- A reinforced planetary shaft system

Maximum-capacity overheat protection

Extreme-duty wiring and connections handle **more** power, which reduces thermal cycling impact. Take on the heaviest jobs with confidence, get **more** production and experience less downtime.

Reinforced planetary shaft system

It's the robust construction you expect from Hobart: An optimized shaft geometry and all-gear-driven transmission leverage **more** of the motor's precision tuning and high-capacity output—so **more** power is driven into the bowl.
