

CL64T TOTE WASHER

Designed to expedite the cleaning and sanitization of totes within your operation.

HOBART

HOBART CL64T TOTE WASHERS

Designed to optimally clean and sanitize industrial totes.

The CL64T Tote Washer is designed to wash a variety of items to help expedite sanitization within your operation. Containers travel through a heated wash cycle, followed up by a heated fresh water rinse. An optional high pressure 20HP blow-off system dries the products using multiple air knives that target all areas of the tote, forcibly removing water. The CL64T tote washing and drying system is the ultimate washing solution for your totes, bins and custom containers.
