CLAS-B SEMI-AUTOMATIC WRAPPING SYSTEM

Hobart's Compact Label Applier System is a semi-automatic solution for efficient meat room wrapping

The compact design is ideal for maximizing space and enhancing productivity

THE CLAS-B SEMI-AUTOMATIC SYSTEM INCLUDES:

- Scale conveyor and label applier module
- Energy Smart wrap station
- Access control panel
- Access prepack printer

SPACE SAVING

The CLAS-B has been designed to maximize floor space, putting everything you need in a compact, efficient package. The latest configuration occupies 20% less floor space than previous models!

IMPROVE PRODUCTIVITY

Automating the weigh and label processes allows operators to wrap product continuously without pausing for additional steps.

ENERGY EFFICIENT

An Energy Smart wrap station compliments the CLAS-B operation. The on-demand seal plate heats up only when a package is present to reduce energy consumption by up to 80%!

SIMPLE OPERATION

The CLAS-B wrap system is easy to use and allows operators to wrap in a 3-step, continuous flow process.

1 **Wrap/Seal Package**

2 **Automatically Weigh/Convey**

3 **Automatically Label/Convey**

CLAS-B SYSTEM FEATURES

- 20% smaller footprint to maximize meat room floor space
- Energy Smart hand wrap reduces energy consumption and is NSF certified
- Left-to-right or right-to-left configurations offer flexibility of meat room placement
- 4-Position swivel wand allows for label rotation in all four directions
- Rugged stainless steel construction for easy cleaning

OPTIONAL ACCESSORIES

Customize your CLAS-B system to meet all your meat room needs with a complete selection of wrap equipment accessories.

- Rotary Bin
- Roller Discharge Table
- Left or Right Side Shelf
- Label Dispensers
