

CLeN BLOWER DRYER - TECHNOLOGY FOR DRYING WARE

Heat and high-pressure air force water off dishes and ware.

Dishes and ware exits the machine blown dry.

Most dishes and ware can be stacked and put away immediately – no wet nesting.

Save Labor & Improve Safety

The CLeN Blower Dryer uses heat and forced air to rapidly remove residual water from ware as it exits

the dishwasher. Staff can put ware away without the wait time for drying and with less risk of wet nesting.

SAVE SPACE, DRYING TIME & ENERGY IN YOUR DISHROOM

<p>75% FASTER WITH HIGH VOLUME BLOWER VERSUS AIR DRYING</p>	<p>20% MORE HEAT THAN COMPETITIVE DRYERS</p>	<p>33" FOOTPRINT REDUCES SPACE FOR DRYING WARE</p>
