## MORE MEAT and MORE CHEESE can be sliced and sold per chub with Hobart HS Slicers!

## Hobart HS Series slicers are a cut above the competition.

Here's some of the exclusive features that save you money and increase yield.

#### 13" CleanCut<sup>™</sup> knife with cobalt alloy edge

Exclusive stainless-steel, cobalt-edged knife stays sharp longer and **lasts up to three times longer** than other carbon-steel knives on the market.

## Patented removable knife and removable ring guard cover

The CleanCut<sup>™</sup> knife has a patented removable design. It removes easily and cleans in a sink or dishwasher while the removable ring guard cover prevents debris buildup and provides extra protection for the operator.

#### Tilting, removable carriage

No other slicer brand makes it this simple to operate and remove the carriage. That means more time is available to create great food.

#### **Top-mounted Borazon® sharpening system**

Sharpen and hone the knife in just 15 seconds, with one action. And the sharpening system is dishwasher safe.

#### Zero knife exposure

Even when sharpening and cleaning the knife, unintentional contact with the sharp edge can be avoided.
