

BETTER FOR THE
ENVIRONMENT
BETTER FOR THE
BOTTOM LINE

ITW Food Equipment Group – North America has been the ENERGY STAR Partner of the Year – for **13 straight years** – clearly demonstrating our ongoing commitment to developing new products and technologies that help our customers save money and protect the environment.

No matter what type of foodservice operation you have, greater efficiency leads to greater profits. Manage those monthly power bills by **utilizing the most energy-efficient equipment available.**

Being the industry's leader in innovation goes beyond achieving the ultimate in cooking performance, reliability and durability. It's ensuring that, throughout our product portfolio, we deliver the level of quality you've come to expect from Vulcan, while helping you maintain a profitable, sustainable operation that's efficient, productive and environmentally sound.
