

VMCS BENEFITS

Add the heavy-duty electric Vulcan Manual Clamshell (VMCS) accessory to your Vulcan griddle and **COOK MENU ITEMS FASTER AND MORE CONSISTENTLY** than ever before. With a sleek, easy-to-use design, it's the perfect solution for maximizing griddle production in a small footprint.

DOUBLE YOUR PRODUCTION NOT YOUR FOOTPRINT

The following information is based on using the Vulcan Manual Clamshell accessory versus without.

 **COOK TIME**
75 vs 210
IN SECONDS

 **BATCHES**
PER HOUR*
48 vs 17

 **ADDITIONAL**
POTENTIAL
REVENUE PER DAY
\$9,257 vs \$0

 **POTENTIAL**
BURGERS
PER HOUR
288 vs 103

 **SALES**
REVENUE PER DAY**
\$14,440 vs \$5,143

 **POTENTIAL**
BURGERS PER DAY
2,880 vs 1,029

WHAT'S THE PAYBACK PERIOD ON THIS INVESTMENT?

Purchase a VMCS clamshell, griddle mounting frame, year's supply of Teflon sheets, and a service install for less than \$7,500. That means you will recover the cost of this equipment investment IMMEDIATELY after generating increased revenue and production for your operation.

*4 oz. Fresh Beef Burger Patties (assume a load is 6 patties under VMCS)

**36" Vulcan griddle, 1 VMCS installed far right, assumes 10-hour workday, \$5/burger
