# **VULCAN** -ize your iPad

Included are instructions on optimizing options for your iPad that should increase your productivity and make your Sales presentations "iPad-tastic".

- SlideShark
- **iPad** Videos
- **VULCAN** **WOLF** **Berkel** Resource Center
- **Safari**

1. Install the SlideShark app on your iPad

2. Email a PowerPoint presentation to an account you can access on your iPad.

3. From your email, press and hold on the file and choose to open in SlideShark. This will activate SlideShark, and you must then choose to 'Upload' the file to SlideShark

10/2/2012

4. SlideShark will then process and upload the file from email to the app

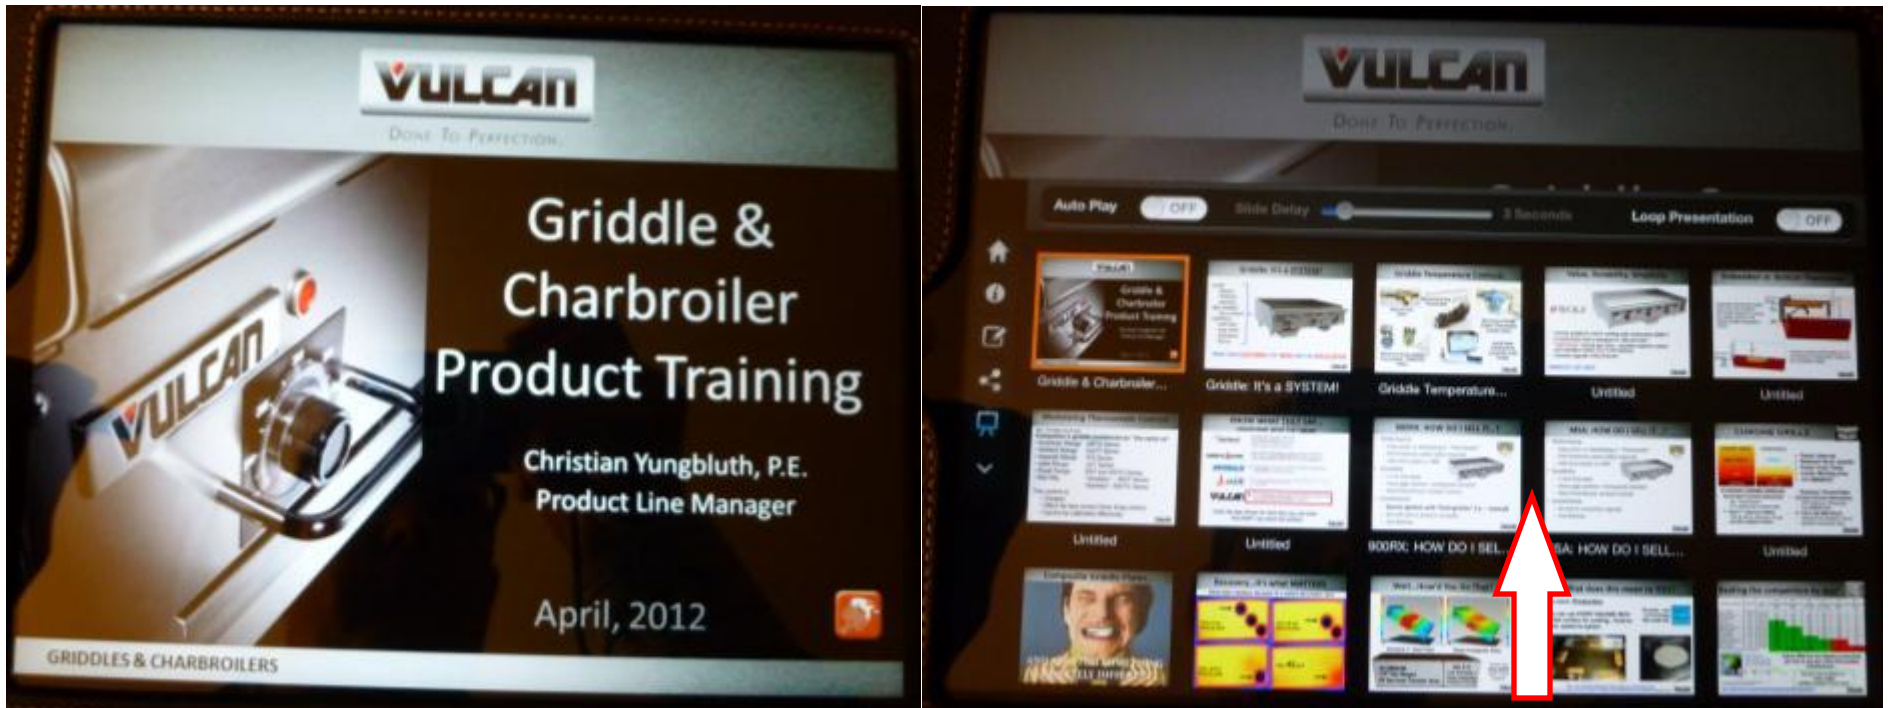

5. Once <u>uploaded</u>, the file is then *downloaded* (processed) by SlideShark, converting it to SlideShark native format

6. The file is fully downloaded and viewable when the green 'play' button is active.
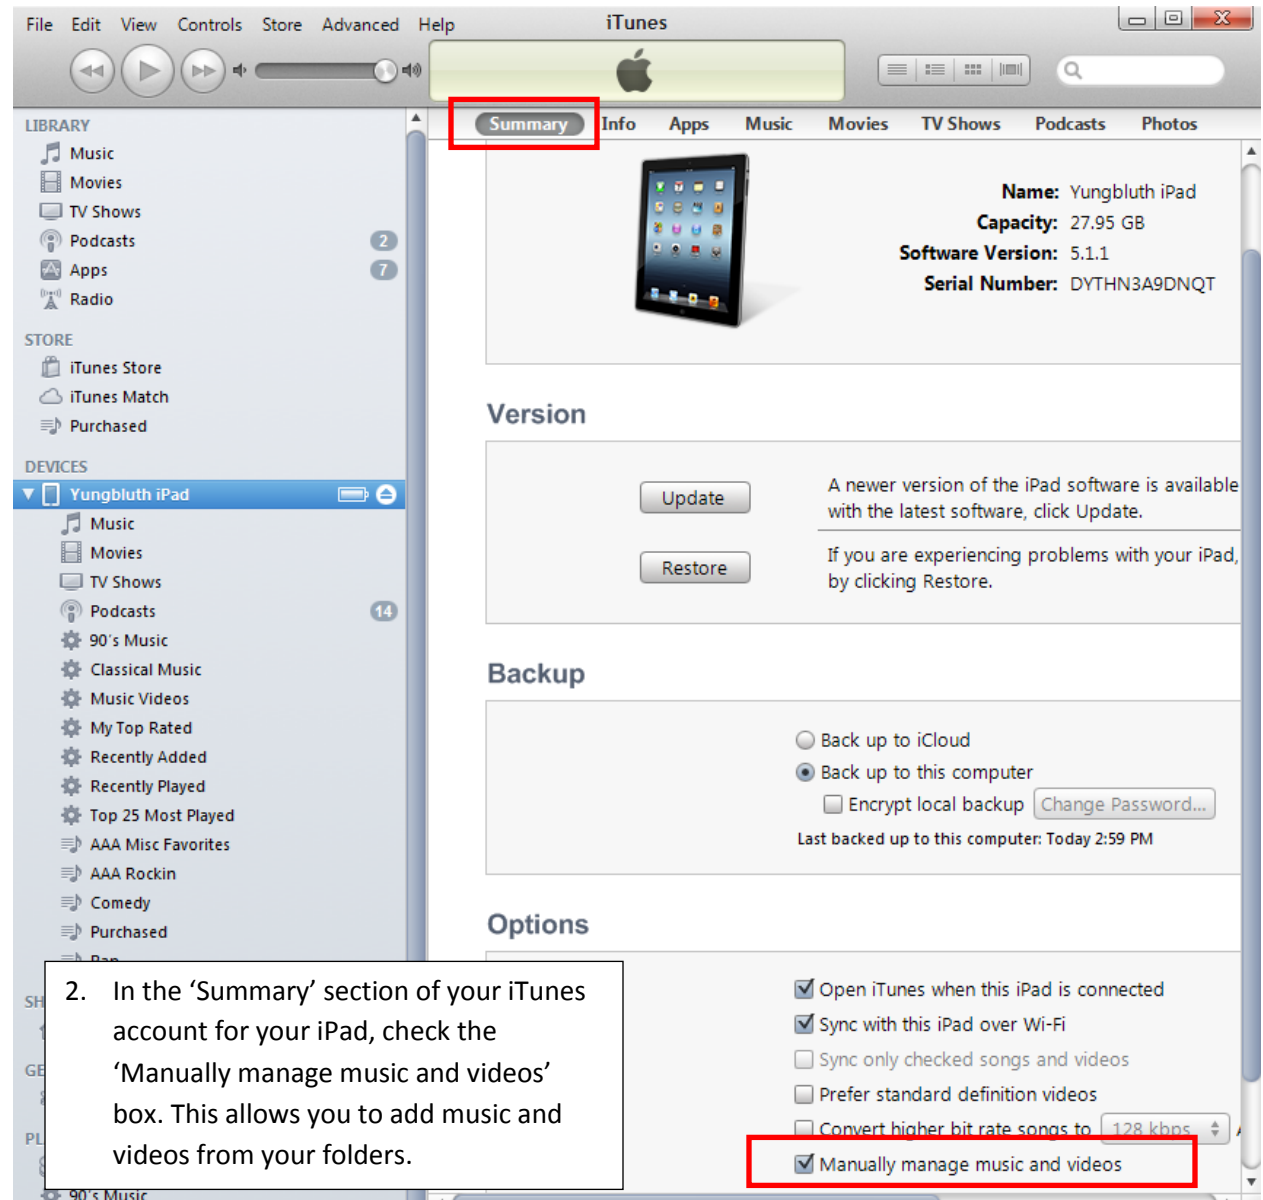

7. The presentation is now ready to use, and will act and transition exactly as it would on a normal computer. By swiping up from the bottom of the screen the individual slides can be viewed and selected to rapidly transition during sales presentations. For more information see http://www.slideshark.com/

iPad Videos

1. Install and open Apple iTunes software on your computer desktop (http://www.apple.com/itunes/)

2. In the 'Summary' section of your iTunes account for your iPad, check the 'Manually manage music and videos' box. This allows you to add music and videos from your folders.
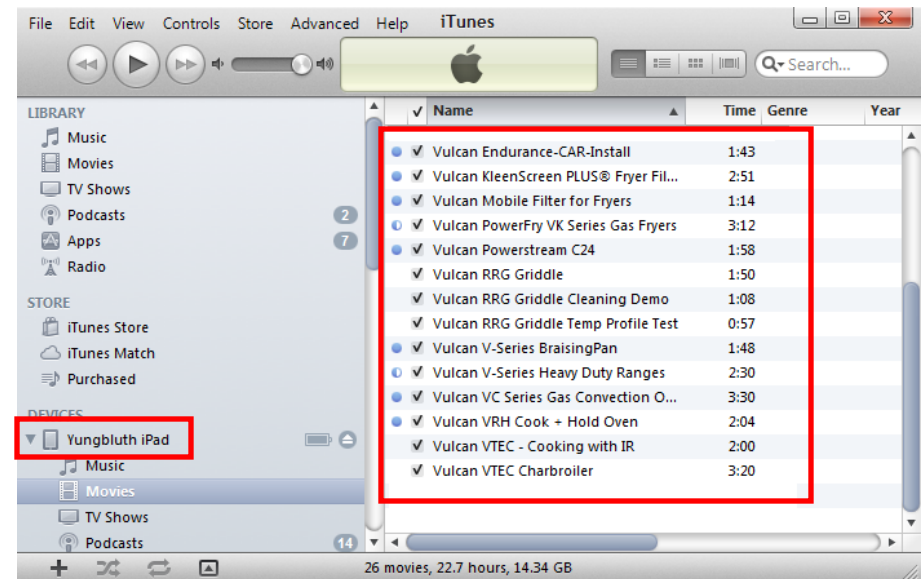

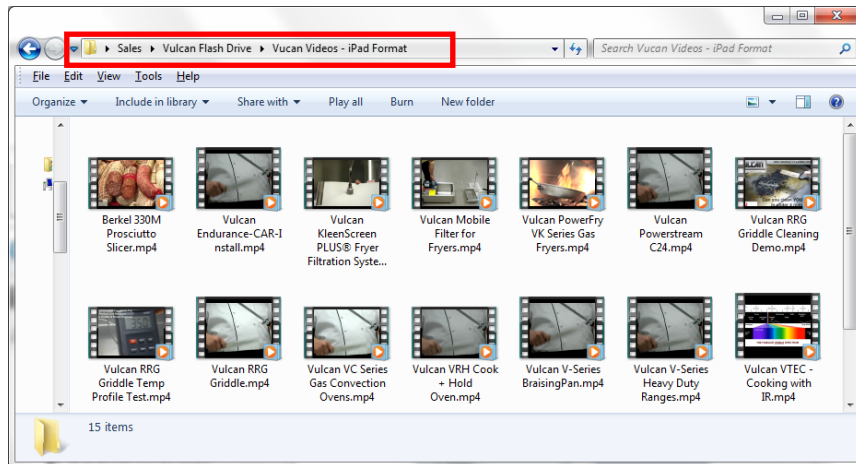

3. Open iTunes on your computer desktop AND open the directory where the videos are stored that you would like to add to your
5. Drag video files from the directory selected to your iPad Movies section.
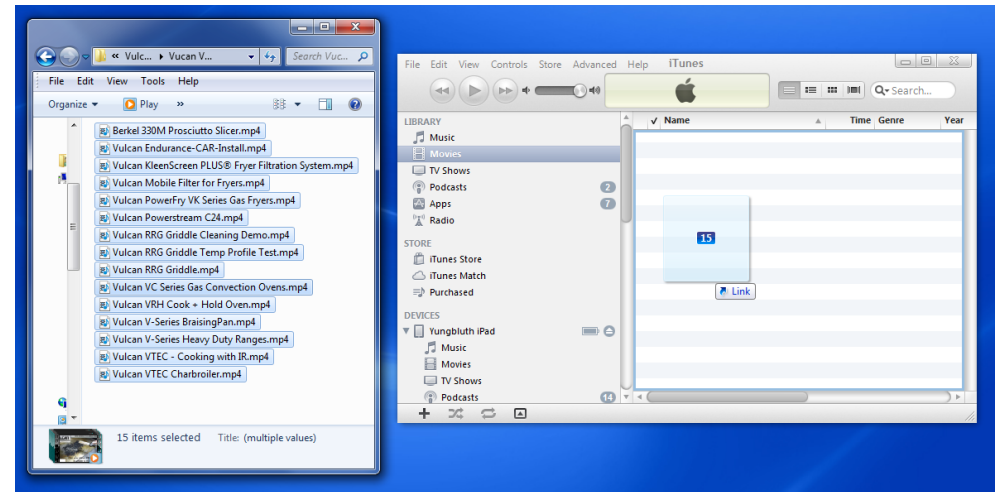

4. Movies will synchronize to iPad, and can now be viewed in the 'Videos' application.
